DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Objections

2. Claims 1 - 8 and 20 are objected to because of the following informalities: With regard to claim 1, the claim should end with a period, not a semi-colon. With regard to claim 20, it appears that Applicant has not copied the final two lines of the claim in the copy submitted on 2 April 2004. Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. Claim 16 is rejected under 35 U.S.C. 102(b) as being anticipated by Golden for the reasons provided in the Office action of 8 October 2003.

Claim Rejections - 35 USC § 103

4. Claims 17 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Golden for the reasons provided in the Office action of 8 October 2003.

Response to Arguments

5. Applicant's arguments filed 2 April 2004 have been fully considered but they are not persuasive.
6. In response to applicant's argument that Golden does not meet claims 16 - 18, which is a kit for performing the inventive method, a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the

Art Unit: 3736

claim. In a claim drawn to a process of making, the intended use must result in a manipulative difference as compared to the prior art. See *In re Casey*, 152 USPQ 235 (CCPA 1967) and *In re Otto*, 136 USPQ 458, 459 (CCPA 1963). As the sterile evacuated specimen tubes of Golden are structurally indistinguishable from Applicant's claimed set of tubes, Golden is considered to meet the claims.

Allowable Subject Matter

7. Claims 9 - 15 and 19 are allowed.
8. Claims 1 - 8 and 20 would be allowable if rewritten or amended to overcome the objections set forth in this Office action.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
